SUMMARY

I bridge technology and operations to deliver cross-functional projects on time and scale teams. With a foundation in systems administration, automation, and hands-on leadership, I've managed 20 office staff and coordinated 100+ field workers across multiple job sites. I lead complex implementations such as cloud migrations, CRM transitions, and custom app rollouts, by turning strategy into actionable plans and driving adoption through clear communication and training. My approach raises quality, efficiency, and morale by combining technical depth with people-focused leadership.

ABOUT ME - PROFESSIONAL

I work directly with executives to prioritize initiatives, scope requirements, and remove roadblocks. My experience spans cloud infrastructure, workflow automation, and internal applications, but my true strength is aligning teams around a shared vision and managing the details that turn ideas into delivered projects. I map high-level strategies into project plans, coordinate cross-team execution, and build the metrics that keep us accountable.

ABOUT ME - PERSONAL

I'm a husband and dad first. Off the clock you'll find me camping with my family or reverse engineering something so it works better, from 3-D printing parts to automating household tasks. Curiosity drives me; making life easier for others keeps me motivated.

Experience

Technical Operations & Implementation Lead

Matt's Moving – Saint Paul, MN
July 2022 – Present

- Oversee technical operations for 20 office staff and coordinate 100+ field workers across sales, dispatch, HR, and finance; align resources and resolve blockers to keep projects on track.
- Manage IT/security (Windows/Linux servers, Active Directory, Google Cloud) with 24/7 uptime and incident response.
- Own full project lifecycle: run planning sessions, define scope and milestones, track progress, and lead adoption across departments.
- Lead digital transformation initiatives—develop and launch internal apps (AppSheet, Firebase), integrations, and analytics tools—that automate workflows and improve cross-team collaboration.
- Produce executive dashboards and chair monthly sales meetings to ensure leaders have clear, actionable insights.
- Serve as a single point of contact between business and technical teams, translating requirements into roadmaps and facilitating change management.

SKILLS

- **Systems Administration** (*Active Directory, Windows/Linux, Office 365, Google Workspace*)
- **Process Automation** (*Zapier, UiPath, Power Automate, Google Apps Script*)
- **Cloud Platforms** (*Google Cloud Platform, Firebase, Azure – familiar*)
- **App Development** (*AppSheet, FlutterFlow, WordPress, Bricks Builder, Formidable Forms*)
- **API & Data Integrations** (*Stripe, QuickBooks, Google Maps, Supermove, REST*)
- **Infrastructure, IAM & Compliance** (*Microsoft Purview, Admin Console*)
- **Project & Stakeholder Management** (requirements gathering, project planning, risk & change management, KPI reviews, executive communication)
- **Programming & Tools** (*Python, JavaScript, HTML/CSS, Flask, Node.js, Git, PowerShell*)

Sales Director & Systems Strategist

Matt’s Moving – Saint Paul, MN / July 2019 – July 2022

- Managed and mentored a five-person sales team; set KPIs, coached weekly, and conducted quality audits that improved close rates.
- Stepped in as interim customer-service manager; stabilized operations and maintained service quality during leadership transition.
- Project-managed a company-wide CRM migration: scoped requirements, coordinated with developers, created training, and executed a rollout with zero downtime.
- Delivered weekly one-on-one performance reviews and executive reports that linked sales metrics to action plans.
- Collaborated with developers to test and refine new CRM features using real user feedback, ensuring the platform met business needs.

Sales Team Member

Matt’s Moving – Greater Minneapolis – St Paul, MN / Jul 2019 – Jun 2020

- Consistently exceeded revenue and quality targets; promoted to Sales Director within one year.

Office Assistant / Operations Support

AAAction Movers – Fargo, ND / Sep 2018 – Jun 2019

- Scheduled crews and trucks for up to 15 moves per day across three states during peak season.
- Introduced customer-feedback surveys that surfaced process improvements and raised satisfaction scores.

Superintendent

Ad-Ler Roofing – Minneapolis, MN / Dec 2017 – Sep 2018

- Oversaw 15–20 roofing projects simultaneously, coordinating labor, materials, and inspections.
- Led daily safety briefings; maintained zero OSHA citations while finishing projects on time and under budget.

Clinical Conference Coordinator

University Cancer & Blood Center – Athens, GA / Nov 2016 – Sep 2017

- Organized weekly multi-disciplinary tumor boards, aligning surgeons, oncologists, and radiologists on 100+ cases.
- Consolidated imaging and records into concise decks, reducing prep time while ensuring HIPAA compliance.

Administrative Specialist (Petty Officer 3rd Class, E-4)

United States Navy / 2012 – 2016

- Supervised six sailors managing classified personnel records for 300+ service members.
- Passed Navy leadership courses; two direct reports earned early promotion under my mentorship.
- Received Letters of Commendation for flawless logistics during high-tempo deployments.

EDUCATION

Technical Diploma – IT – Software Development Specialist

Chippewa Valley Technical College – Eau Claire, WI

Coursework included: Systems Analysis, Software Design, JavaScript, Python, Database Design, Web Development, Cloud Fundamentals

Ongoing Professional Development

I keep skills current through targeted courses and labs:

- CompTIA Cloud+ (CV0-004) All-in-One – Udemy
- Google Cloud Architect Bootcamp – Coursera
- JavaScript & Node.js Mastery – Udemy
- Complete UiPath RPA Developer – Udemy
